## Newsletter January 2012

Happy New Year to all our customers, from all of us at Bure Valley Models. I hope that Christmas brought you all that you were hoping for whether in the form of the models you wanted or simply a well earned rest.

Release dates of new models in 2011 were somewhat of a moveable feast with many delayed models making their eagerly awaited appearance and others not appearing at all.

Many of you will have read of the new releases announced by Hornby and also the assurance that all delayed models and new releases will appear before the end of 2012. This is good news especially for those still awaiting the arrival of the B17's!

The run up to Christmas saw a flurry of new releases arrive at Aylsham and sadly a few missed the Christmas period, but are promised for the early part of January.

### Bachmann New Arrivals

#### New 3F Arrives

The new 3F 0-6-0 tender engine of Midland Railway origin have now arrived and been selling very quickly. Sadly the BR Black Late Crest is sold out. We have currently sold out of the LMS livery but expect more in very soon.

## Class 350 Desiro 4 Car EMU

The first of this new EMU is now in stock. Built by Siemens these 4 car EMU's operated on the West Coast Mainline by both Silverlink and Central Trains before transferring to the newly formed London Midland. Routes covered are between Euston as far north as Liverpool and Crewe. The 350/2 has higher density seating for shorter commuter journeys from Tring and Milton Keynes. 350/1 has less dense seating and operates on the longer routes. From practical observation route use seems totally interchangeable.

<b>31-030</b>	<b>350/1 Silverlink –Unbranded - In stock</b>	<b>£109.00</b>
<b>31-031</b>	<b>350/2 London Midland Livery – Due Shortly</b>	<b>£109.00</b>
